

# HBCU Learning Series

Interviewing for  
Internships

**Wednesday, October 16**  
**12 p.m. – 1 p.m. ET**

**Jeanita Pritchett Clay, Ph.D., PCC**  
Chief Scientific Diversity Officer  
National Center for Advancing Translational Sciences

The **Princeton Plasma Physics Laboratory** and **National Institutes of Health** have partnered to host a workshop. “Interviewing for Internships” is designed to equip current students and young professionals with the essential skills and knowledge needed to excel in internship interviews. Participants will engage in interactive discussions, practical exercises and role-playing scenarios to build confidence and competence in their interviewing abilities. **This event is open to all students!**
