

NEXTFLEX

WORKFORCE DEVELOPMENT

LISTENING SESSIONS

We're hosting listening sessions with key partners across the advanced manufacturing and hybrid electronics ecosystem, to better understand your current challenges and priorities for your workforce. We want to understand:

- Is your organization is interested in a hybrid electronics readiness assessment and an informative accompanying report?
- What workforce gaps or HR pain points, especially around recruitment, retention, and upskilling exist for you?
- What types of resources, tools, or partnerships that could strengthen your ability to attract and retain talent?

VIRTUAL SESSIONS

July 15 at 3PM ET

OR

July 22 at 3PM ET

Your insights will directly inform the development of future NextFlex programs designed to support the broader workforce ecosystem.
